University of Sydney – Become an Occupational Therapist

19 August. 4.30pm

Occupational therapists are experts in the everyday. We help people overcome barriers that prevent them from doing the activities (occupations) that they want to do or need to do in their everyday lives. These barriers could be caused by disability, injury, health conditions, ageing or other life circumstances or they could be caused by the environments in which people live or work. Occupational therapists come from the perspective of “What matters to you?” not “What’s the matter with you?” We focus on what is most important for individuals, group or community we work with – so this makes a career in occupational therapy challenging, exciting and rewarding. Join us for this webinar and explore where a career in occupational therapy could take you

University of Sydney – Why study Exercise Physiology or Exercise Science?

20 August. 4pm

A degree in Exercise Physiology or Exercise Science might sound fun, but where can it take you? How is being an Exercise Physiologist different from being a Physiotherapist? In this masterclass Associate Professor Kate Edwards will clear up some common confusions about studying sport/exercise degrees, and tell you why educating exercise professionals is so important for Australia's future.

Uni of Newcastle Yr 12 Subject Spotlight - Early Offer Program

We believe that your ATAR doesn't define who you are – it is your unique passions, abilities and ambitions that matter. Our Year 12 Subject Spotlight program rewards you with an early offer for your hard work and strong results in one or more subjects related to your degree. So, you can take some of the stress out of your final school exams, knowing your ATAR isn't all that matters. There is no separate application for the program – simply apply through UAC and have UON listed as your first preference. Choose your preferred degree from the drop-down menu below to see what subject marks you'll need to receive an early offer.

<https://www.newcastle.edu.au/study/undergraduate/getting-in/entry-schemes/subject-performance-scheme>

University of Newcastle – Joint Medical Program (JMP)

Applications close 30 September 2020. Late applications will not be accepted under any circumstances. You need to have already registered and sat for UCAT.

Applications will open mid-August. You will have the opportunity to review your application after it has been submitted. For details and instructions on how to apply, please download the [online application instructions](https://www.newcastle.edu.au/joint-medical-program/how-to-apply).

St Andrew's College (University of Sydney) Scholars Program Applications

The St Andrew's Scholars Program seeks young people with the capacity and commitment to realise their potential to lead their College, university, nation and world.

Applications for our 2021 intake are now open. All applications must be received by 31 August 2020.

Panel interviews (in-person) for those shortlisted will take place in Sydney on 25-26 September, 2020.

Alternative arrangements may be undertaken for international students, or for interstate students if quarantine restrictions apply.

The scholarships offered as part of the Program provide full fee relief and are awarded for the entire duration of each student's undergraduate degree.

Successful applicants will be exceptional young men and women who thrive academically, are engaged in life, and have the potential to make a significant positive contribution to College and, in the future, the wider community. <https://www.standrewscollege.edu.au/scholars/>

Student Life in the Tertiary World

Choosing what to study and where to study is really just the tip of the iceberg. Once you've finally made the big decision and turned up for your first day, student life is everything that follows. Your time as a student is a whole lot more than just showing up to class and displaying a diploma on your wall. Rather, it's about the complete picture and what you get out of your experience, including minor ups and downs and the general challenges that come with taking time out to complete post-compulsory education.

How to get Industry Experience While You are Still Studying

It's never too early to start thinking about getting your foot in the door. University can be a tad overwhelming for new students but once you've become settled, it's a good idea to keep an eye out for any workplace opportunities.

Whether it's through an internship, volunteering, work experience or a combination of all three, getting ahead is entirely possible while you're still studying.
