## **Business Cadetships**

**Opens - Monday 8 March 2021**

*Closes - Wednesday 26 May 2021*

As a Business Cadet, typically you combine university study in Sydney with paid work at UBS or Barrenjoey Capital Partners in Sydney. The Business Cadetships Program allows you to choose the university where you will study and allows you latitude in your choice of degree program.

Over the last fourteen years, Professional Cadetships Australia has provided Year 12 students with the opportunity to apply for a cadetship with leading companies in the financial services industry, including UBS, Bank of America Merrill Lynch, BNP Paribas, Westpac, QBE and Zurich. In 2021, the Business Cadetships Program offers exciting cadetship opportunities in a range of business areas at UBS and at Barrenjoey.

When is ADFA Open Day?

21 August 2021

This is a chance for potential ADFA candidates, Defence families and members of the community to learn more about the lifestyle, military training and tertiary education on offer at the Academy. There is also a range of military displays by the Navy, Army and Air Force to give you a snapshot of some of the careers available to you in the ADF.

Thousands of people attended the 2019 ADFA Open Day and enjoyed the RAAF solo Roulette display, Police military working dogs display, and a simulated ground based infantry attack by ADFA Midshipmen and Officer Cadets. Army vehicle displays, Army Parachute Display Team, Navy helicopters and much more. ADFA's Midshipmen and Officer Cadets ran stalls, selling food and interacted with families and potential candidates to provide them with insight into life at ADFA.

Further details about the 2021 ADFA Open Day, including any restrictions on attendance due to the ongoing COVID-19 pandemic, will be advised as they become known.

## **ACU Talking with Nurses, Midwives and Paramedics**

20 April. 6pm

Join us online to hear from ACU alumni about their experiences working as nurses, midwives and paramedics. Take part in a Q&A session with our graduates and learn what it is like working on the frontline and using your skills to help people when they need it the most.

Caring for others gives more than it takes. A career in nursing, midwifery or paramedicine means a career helping others.

## **ANU How to Apply Direct 2022 - Consider which ANU programs are best for you**

Opens 3 March 2021

Closes 24 May 2021

Here are the first couple of steps to follow. The remainder are to be found using the link below:

Step 1 - Check you're eligible to submit a direct application to ANU

You are eligible if:

- You completed Australian Year 11 or International Baccalaureate Year 11 and will complete your Australian Year 12 studies in 2021 or an International Baccalaureate Diploma in November 2021.
- You will be applying for an undergraduate program that starts in 2022.
- You are a domestic student, this includes:
  - Australian citizens;
  - New Zealand citizens;
  - Holders of an Australian permanent humanitarian visa; and
  - Permanent residents of Australia.

Step 2 - Consider which ANU programs are best for you

View [Programs and Courses](#) to find a program that best suits your interests.

You can also view admission requirements including minimum selection rank, prerequisites, study options, and any additional entry requirements that are required as part of your application.

Step 3 - Check that you meet the co-curricular or service requirement

The co-curricular or service requirement considers the knowledge you have developed outside of the classroom and recognises this in your ANU application.

You'll need to provide documentation to support your activities over the last two years, such as school reports or certificates for community activities. You can view [examples of documentation](#) we accept, or use our [supporting documentation template](#) to help.

Find out if you meet the requirements by using our [co-curricular or service calculator](#).

### **Neuroscience Night at UNSW**

17 March. 6pm

Brain Awareness Week is a global event which focuses on raising awareness of the progress and benefits of brain research. Join UNSW for an evening of brain science, hear how neuroscience helps us prepare for the future, and how it applies to the law, economics, and ethics.

Hear from [Dr Jay Bertran-Gonzalez](#), head of the [Neuromodulatory Systems & Behaviour team \(NeuroModuLab\)](#), one of the founder groups of the Decision Neuroscience Laboratory in UNSW

Psychology. His work looks at decision making and his talk, titled "Your brain lives in the future" will outline how the brain uses information in the present to build a virtual future, and how this is the basis for learning from and adapting to the real future.

ANU - What will engineering look like in 2050?

16 March 2021. 5pm

Much has changed in the field of engineering and the wider world over 30 years. The world in which we live is changing at an increasingly rapid pace, and technology and innovation continue to play an ever-increasing role in our day-to-day lives. Engineers have been at the forefront of this change and played vital roles in finding solutions for the issues of our time - whether that be in automation, climate change, or dealing with pandemics. Looking forward another 30 years to 2050, how will the world and engineering have changed? And what will engineering look like then? Join us and our panel of experts for a discussion on the changing face of engineering as we look at trends for the future. We will also be holding a sneak preview into our newly renovated Birch Building, part of the new School of Engineering.

### **The best Australian universities to study health services and support**

A career in health services and support is a rewarding experience as it makes a big difference in people's lives. Whether it's a position as a dental assistant, anaesthetist or carer, there are plenty of job opportunities in health services, as it's one of the fastest-growing industries.

[The Good Universities Guide rankings](#) look at Australian universities' specific strengths, offering insight to support and guide decision-making when choosing a university. View the rankings in terms of how each university performs overall, or you can narrow down by field of study and state.

We looked at which universities with undergraduate health services and support degrees performed best in full time employment, teaching quality and graduate salary. [Click here for more info.](#)

Simulated UCAT Day Workshop: 2-Day program

If you are in Yrs. 10, 11, 12, or perhaps you may be older and considering sitting the UCAT in the future, then this program is for you. The Simulated UCAT Workshop program is ideal and often a necessary step towards effective and efficient preparation for the UCAT.

This event will be conducted by the **National Institute of Education** in partnership in partnership with **UCAT Preparation Australia, MICAS** (Medical Interviews and Career Advice Services) and **PTTI** (Pro Training Tutorial Institute).

The workshop is primarily designed to cover fundamental techniques in navigating all five sections of the UCAT test and also for participants to gain a better understanding of their own level of preparedness for the test. Over the course of the years, the program has evolved into more comprehensive and holistic exercise, which not only achieves its primary goal, but it is also exposing students to a wealth of knowledge about all other aspects of the journey into a medical degree. The latest update has seen the program grow into a 2-Day event as the sheer amount of content covered was too great to fit into a 1-day program.

### **CSIRO Virtual work experience program**

Are you the parent of a Year 10 or 11 high school student? Your child can gain first-hand experience of CSIRO's research in science or engineering by participating in our 2020 Virtual Work Experience Program. The virtual work experience program supports students to undertake work experience despite COVID-19 interruptions and provides access to work experience opportunities for students who may face geographic or other barriers to participating in traditional work experience. It also allows students the opportunity to experience contemporary ways of working, from homes, and with people across geographic boundaries, just as CSIRO scientists do every day.

Virtual work experience allows students to undertake collaborative, group science, technology, engineering and maths (STEM) projects, including projects linked to real-world CSIRO research and industry challenges. Instead of students attending a CSIRO site, experienced CSIRO staff or STEM industry professionals will supervise groups of students remotely using a secure online platform. The groups will comprise up to five students who may be remote from each other and who will work together to complete work and tasks that can be used as part of portfolios and help inform their study and/or career plans.

<https://www.csiro.au/en/Careers/Work-experience>

### **From Science Fiction to Science Fact**

Year 9-10 students will hear from real STEM researchers on transforming science fiction technology into reality. They then brainstorm, create a prototype and pitch their own entrepreneurial creations to their peers and STEM experts for a chance to win cash prizes! The program is virtual and discounts for 30+ groups.
