ATAR Release, Preferences and Offers
Wed 1 Dec 2021. 6pm
We'll discuss how to manage course preferences to maximise your chances of an offer once you've received your ATAR, explain offer rounds and how to defer your offer, and give answers to the most commonly asked questions.
https://uacdigital.easywebinar.live/atarrelease

UAC webinar: ATAR Release, Preferences and Offers
10 Dec 2021. 6pm.
This session is your one-stop shop for all things ATAR release, preferences and offers. We'll discuss:
– how to access your ATAR
– how to read your ATAR Advice Notice
– what to do once you receive your ATAR
– how to manage your preferences to maximise chances of an offer
– offer rounds and dates
– deferring and taking a gap year.
And we'll give answers to the most commonly asked questions!
https://uacdigital.easywebinar.live/atarrelease

UAC – A Message for Parents of Year 12 students: next steps for uni offers
Congratulations on supporting your Year 12 student through a challenging final year of school! While they're focusing on their exams, stay in the loop on application deadlines and offers with this guide to what's coming up over the next few weeks.
Schools Recommendation Scheme (SRS)
Applications for SRS closed on 19 September and the first offers were released today, 12 November.
If your child submitted an SRS application and was successful, they would have received an unconditional offer or a conditional offer.
An unconditional offer means that, apart from completing their HSC, they have no further requirements to meet. They can accept it knowing they have a place at uni waiting for them.
A conditional offer means they must meet additional criteria (eg a minimum ATAR). The institution will tell them what these are in the conditional offer email.
If your child receives an unconditional offer to one of their highest preferences but wants to be considered for all other preferences in later offer rounds, they should:
accept their offer to the course
move the course down to the bottom of their preference list or remove it entirely.
As long as they have accepted their unconditional offer, they can't lose it.
If they receive a conditional offer, they need to leave the course preference in their UAC application. Then, on 26 January (January Round 2), they'll receive an unconditional offer to the course that is highest in their list of preferences and for which they are eligible and competitive enough. This could be the course for which they received the conditional offer or it could be another course that is higher in their list.
They can only receive one unconditional offer in each round, so they always need to keep the course they most want to study at the top of their list.
Institution-specific SRS criteria
Additional SRS offers
Institutions have the option to make further unconditional offers in November Round 2, December Round 1 and January Round 1. If your child forgot to include one of their preferred SRS courses in their application, or put their course preferences in the wrong order, they will have another chance to get an early offer.
https://www.uac.edu.au/media-centre/news/guide-for-parents

UNIVERSITY

Degree Costs Fee Structure and Loans
There are countless things to think about when you start sorting through your study options: the course you want to do and where you want to do it, just to name a couple.
But what about the cost of your course? In the same way as it is helpful to understand the structure of your program and its graduate opportunities, it also helps to know exactly where you stand on the costs front. The cost of your education and how you pay for it vary depending on a few factors, which will be explained below.
https://www.gooduniversitiesguide.com.au/study-information/funding-your-education/degree-costs-and-loans

Macquarie Next Step pathway
How does the pathway work?
In this pathway, you will be able to study four Macquarie units across two 13-week sessions and attend classes alongside current Macquarie students as you would in an undergraduate course.
Upon completing four units at a pass level, you'll secure your place into one of 19 Macquarie degrees.
Alternatively, if you complete your first two units with a Weighted Average Mark (WAM) of 65 or above, you can articulate into your chosen degree sooner.
You will automatically be assessed for articulation and acceleration eligibility upon release of examination results. If you are eligible for articulation, you will be invited via email to complete an online application.
For information click here.

Macquarie Gifted and Talented Entry Program
Applications for Macquarie's Gifted and Talented Entry Program are now open to high-achieving students who have finished year 10 and have the capacity to take on extra-curricular study. As part of this entry pathway, students will study university units alongside their high school subjects. Students could be eligible for an early offer (before sitting their final Year 12 exams) to a Macquarie degree. Applications are open until late January to undertake units in Session 1 2022. Read more here.

Macquarie - Space Travels MQ - Cosmic Nurseries and Graveyards
Friday 3 December. 8:30pm-10pm
The Macquarie University Astronomical Observatory is back with Episode 4 of Space Travels, with Prof. Orsola De Marco and Gabriella Quattropani. Join us as we wander through the stellar birthplaces and graveyards, exploring the life and death of stars.

ANU - Is AI Good for the Planet?
30 November 2021. 6pm
We often think of Artificial Intelligence (AI) as a thing of the immediate future. We are constantly bombarded by slogans of AI coming to change our life, whether we like it or not. We are reassured it will be a better life. A better capitalism. A better environment. From smart devices, to home voice assistants, image recognition and translation, AI is offered as the solution to the greatest challenges of this age. This portrayal of AI as a benevolent deity has a crucial effect: it obfuscates the materiality of the infrastructures and devices that are central to its functioning. In her new book Is AI Good for the Planet? (Polity, 2021) Benedetta Brevini asks us to think about AI in a different, and more material way than most of us have in the past.
https://www.anu.edu.au/events/is-ai-good-for-the-planet-by-benedetta-brevini-book-launch-online

UOW - Discovery Day 2022
Monday 14 February to Friday 18 February 2022
Discovery Day at UOW gives Year 12 students the opportunity to experience firsthand what a day at university is like. Students build a personal timetable and attended lectures as if they were a UOW student. Want to know more about what your day might look like? Check out some example Discovery Day timetables.
Our team has been working behind the scenes to design a Discovery Day experience here on our Wollongong campus that adheres to all current COVID safety requirements, allowing you to experience all that university has to offer while ensuring the wellbeing and safety of our staff participants.
https://www.uow.edu.au/study/high-school/discovery-day/

UOW College - Fitness - Online Info Session
Tuesday, 11 January 2022. 5:30 PM - 6:30 PM
Looking to start your career in the Fitness industry?
Have you been thinking about studying a Fitness course at UOW College or do you already have an application or offer and still need answers? Don't worry we've got you covered. Please join us for our upcoming online info session to find out more about our Certificate III, Certificate IV in Fitness and FitPro courses. We'll also cover entry requirements, job outcomes and eligibility criteria to access Smart & Skilled government funding. Staff will be available on the night to answer any questions you may have. Applications are open now! Classes start the 31st of January.
https://studentservice.uow.edu.au/Portal/Events/EventDetails?eventId=9dba6214-513c-ec11-818f-00224810b8e7

UOW College - Nursing Online Info Session
Wednesday, 12 January 2022. 5:30 PM - 6:30 PM
Want to be a Nurse?
Thinking about studying the Diploma of Nursing at UOW College or already have an offer and still need answers? Don't worry we've got you covered. Please join us for our upcoming online info session to find out how to become an enrolled nurse or progress onto the Bachelor of Nursing at UOW in just 18 months. We will provide an overview of course structure, entry requirements, job outcomes, scholarships available, VET student loans and current remote online delivery mode for this course. Staff will be available on the night to answer any questions you may have. Applications are open now! Classes start in February 2022.
Once you register, we will send you an email with further information on how to join us on the night.
https://studentservice.uow.edu.au/Portal/Events/EventDetails?eventId=a40f8408-453c-ec11-818f-00224810b8e7

UOW College - Animation and VFX Info Session
Thursday, 13 January 2022. 5:30 PM - 6:30 PM
Want a career in Animation and Visual Effects?
Are you thinking about studying the Diploma of Screen and Media at UOW College but need more information? Don't worry we've got you covered. Please join us for our upcoming online info session to find out more about opportunities within the industry and how studying the Diploma of Screen and Media can help you achieve your career goals. We will provide an overview of course structure, entry requirements, job outcomes and current online delivery mode for this course. Staff will be available on the night to answer any questions you may have. Applications are open now! Classes start the 31st January.
Once you register, we will send you an email with further information on how to join us on the night.

TAFE

Start at TAFE and finish at University with a Degree - TAFE NSW Credit Transfer
Check credittransfer.tafensw.edu.au when helping your students to see how many Credit Points a TAFE NSW qualification can give them for a degree with an Australian University. With around 3,000 pathways available.
https://credittransfer.tafensw.edu.au/

Now see what TAFE course you can do to get credit transfer to the Unis you like
UTS, Universities of Western Sydney, Canberra, Wollongong, Newcastle, ACU and more!
The listing is now sorted in order of universities. Find your favourite Uni on the right hand side.
Then look what they offer on the left.
Click a degree you like and see what TAFE Course you could do in order to receive your Credit Transfer into the Uni of your choice.
This is a valuable avenue to get where you want to go.
https://credittransfer.tafensw.edu.au/home.htm?q=&sc=2&so=0

TAFE NSW –Apprenticeships & Traineeships
Here is a great quick summary all about apprenticeships, traineeships, school based apprenticeships and pre-apprenticeship courses. It covers how long they take and who can apply for these opportunities.
From Barangaroo to the Light Rail project, from WestConnex to new residential builds, New South Wales is a state in construction. We need apprentices. We need to build a strong pipeline of skilled tradespeople.
The NSW Government recognises this and has now made it even easier for you to become (or employ) an apprentice. They're investing over $285 million to fund the qualification fees for 100,000 new apprentices. So what are you waiting for? Become an apprentice today.
https://www.tafensw.edu.au/study/types-courses/apprenticeships-traineeships

Get a job in a career you love with a fee-free* Traineeship
With the NSW Government committing to paying the course cost for 70,000 new traineeships, there's never been a better time to enrol at TAFE NSW in a government funded traineeship course.
Traineeships combine on-the-job training with formal study to give you the skills and experience employers are looking for. Generally taking around 1-2 years to complete, traineeships offer you the opportunity to earn a salary while you learn.
TAFE NSW offers a range of traineeship courses covering many industries including early childhood, health and allied services, business, IT, hospitality and warehouse operations.
Traineeships are a to well-paid jobs in a diverse range of careers. In NSW, traineeships are also fee-free*
https://www.tafensw.edu.au/fee-free-traineeships

8 dream careers that are real
Yes, targeting skills shortages and skilling for the digital revolution are good. But maybe thinking outside the box can also work. Maybe you can do it all!
Everyone's got an opinion about skills needs and your study options. You can take a traineeship after advice from the Productivity Commission all the way to a degree leading to a great career.
Following your dreams can work too, because when you pursue your career with TAFE NSW, it's all about making that dream a reality. While you're checking out the below 8 amazing careers that TAFE NSW can take you to, also remember that with TAFE NSW Scholarships, your dream career can be even more achievable.

European Bartender School
This globally-recognised bartender course is famous for training high-quality bartenders through unique teaching techniques and unforgettable experiences.
Our school is right in the heart of the trendy Chippendale district, a neighbourhood crammed with galleries, cool cafés and throwback bars. There are heaps of shops and restaurants near us, as well as a hefty supermarket and a shopping centre. You've even got Chippendale Green just around the corner, the perfect spot for a bit of flair practice.
The most advanced bartender course ever
Our International Bartender Course is the industry's most comprehensive course. It's recognised due to the first-class practical and theoretical education our students receive
https://www.barschool.net/au/barschools/sydney

GENERAL

Financial Assistance and Scholarship Support
There are plenty of costs associated with tertiary study: course fees, books and computer equipment are just a few. If you have additional expenses (such as rent if you need to live away from home), you may be wondering how you will manage on a limited student income.
If you need financial assistance, you generally have two options as a student:
Scholarships
Government allowances
Financial assistance for research students
Student loans
Other loan schemes
There are also schemes in place to assist you with the cost of student services and amenities fees and studying overseas. Your institution may also offer additional financial assistance options. Our advice is to investigate your options the minute you begin searching for courses. With the amount of information to get through, it doesn't hurt to start early!
https://www.gooduniversitiesguide.com.au/study-information/funding-your-education/scholarships-and-financial-assistance

A Start in Life
The program is to assist young Australians in challenging circumstances, and to overcome the barriers to their education, enabling them to reach their potential. Our Student Support Team works in conjunction with parents/carers, students and educators to develop a tailored plan of support and set learning goals for each student, addressing the barriers they are facing to their education. This support can include:

- School essentials - e.g. books, uniforms
- Camps and excursions
- Extra-curricular activities
- IT equipment
- Tuition

CSIRO Undergraduate traineeships
Complete your undergraduate student placement in a discipline relevant to CSIRO's work to further your learning and build long-lasting professional networks.
Calling all tertiary students! Complete your compulsory work placement with us and work alongside leading scientists in an area of interest and learn from the best while build long-lasting professional networks.
About our industrial traineeships
Bring to life what you're learning in your degree in a real world environment and rub shoulders with some of the greatest scientific minds that our country has to offer!
Here's what you need to know
Undergraduate traineeships provide an opportunity for undergraduate students to immerse themselves in an innovative environment to gain valuable skills and experience that you won't find anywhere else. Students must be required to complete a placement as a compulsory or elective component of their undergraduate tertiary study which may include Honours project supervision.
Traineeship placements are usually for 3-12 months and are available across a range of research and non-research functions. The number of placement opportunities varies each year and is based on projects on offer at the time of inquiry.

Meet the Scientists ANSTO
From fusion to climate change. A topic for every budding scientist is available!
Choose from our list of research topics and let your students lead a 30 minute Q&A session with our ANSTO experts. Dial-in from school via Zoom for this free videoconference with our scientists.
This **learning program** is designed to address:

- Science as a Human Endeavour and Science Inquiry Skills content descriptors for Years 5-10.
- Skill outcomes for Year 11 and 12 science subjects.

Our staff are experienced science communicators and can discuss ANSTO's research with primary or secondary classes at an appropriate level of detail.

Please ensure your students do some pre-reading about the research topic and come prepared with questions to ask during the session. We also ask that teachers send us a copy of the student questions the day before, so we can let the scientists know what to expect.
Teachers must be present during the session with their students.

Connect with ANSTO's Women in STEM
ANSTO is committed to supporting the next generation of women in STEM. We are offering a range of opportunities for our female STEM leaders to connect with students from across Australia.
ANSTO's STEM professionals are available to connect and inspire your students.
Choose from a wide listing of successful women in STEM.

Post School Disability Employment and the NDIS - Are you a Year 12 student or leaving school?
School leaver employment supports are NDIS supports available to students leaving secondary school.
These supports give you the skills and confidence to help you move from school to employment. They offer individualised supports for up to 2 years after finishing school to help you get ready for work and plan your pathway to employment. They are also tailored to meet your individual employment goals and may include:

- work experience in open employment
- job skills training
- travel training.

Are you a Year 12 student or leaving school?
School leaver employment supports and education
School leaver employment supports and other service systems
