Shipbuilding Free Online 30 Minute Taster Course

Get a taste for the shipbuilding industry with our free online Shipbuilding Taster Course. The course is designed to provide an overview of the work happening across Australia and the many career opportunities this work will provide.

Gain an understanding of common shipbuilding terminology, production processes and increase your knowledge of some of the most technologically advanced programs in the world, and begin your journey to a rewarding, life-long career in Australia's Naval Shipbuilding Industry!

<https://www.navalshipbuildingcollege.com.au/taster-course/>

Naval Ship Building Careers

There is a career path to suit everyone in the naval shipbuilding industry. More than 15,000 jobs are expected to be created in Australia as part of the continuous Naval Shipbuilding Program over the next 50 years. Learn more about the future ahead for this exciting sector and hear from our AMC Alumni who share their own stories.

<https://www.navalshipbuildingcollege.com.au/careers/>

BOND - Ideas Camp

Thursday, 18 August 2022. 9:00am – 2:30pm

Have you got a business idea that will set the world on fire? Are you unsure of what career path you want to take, but know that you want to blaze your own trail? Well get ready to unleash your inner entrepreneur!

Ideas Camp is a hands on, one day business workshop designed exclusively for our next gen corporate adventurers. In this one day workshop, you will understand elements of the entrepreneurial process, work in teams to develop skills relevant to the entrepreneurship and innovation sector and learn the challenges businesses today face in start-up ventures. Join us as we bring together some successful young entrepreneurs and current Bondies to stir the embers of your business dreams.

So come gather 'round the campfire to hear how they got started and learnings along the way. Fill up your backpack with ideas to plot your own course. Because if they can do it. You can do it.

illuminate Enterprise Challenge

1 – 5 August 2022

Presented in association with the University of Canberra

The illuminate Enterprise Challenge is mapped to national vocational outcomes and fully aligned with the Australian Curriculum – meaning it is not just a great experience, but a beneficial learning environment too.

Each challenge is facilitated by illuminate Education Australia's experts as well as business and community leaders, including from the Chartered Accountants Australia and New Zealand network, who will share their experience and knowledge through presentations, assessment and feedback.

With over 17,000 student across Australia having completed the program, the challenge is an incredibly impactful experience that will leave your students, teachers and wider community inspired for years to come. Hosted at the University of Canberra, with digital participation available for students in Queensland, New South Wales, Australian Capital Territory, Victoria and Tasmania

UTS - Bachelor of Information Technology (BIT) Co-operative Scholarship Program

Applications for 2022 will be open from 20 April - 4 September 2022. Interviews will be held on the 20th of September 2022.

This is a cooperative education scholarship program in computer information systems, developed by UTS in cooperation with a group of leading organisations. It differs from other cooperative education courses in that, during the industry-based sessions, students follow a structured program designed jointly by UTS and the employer group, including formal coursework delivered by industry.

There are a limited number of places available in this course according to the number of industry sponsors each year. If selected for this course, students receive a total scholarship of around \$49,500 for the duration of the course.

This intensive course includes two six-month industry-based sessions with different industry sponsors. Industry sponsors are heavily involved in the curriculum design to ensure graduates are not only highly qualified but also have the knowledge and skills relevant to the needs of industry.

<https://www.uts.edu.au/about/faculty-engineering-and-information-technology/bachelor-information-technology-co-operative-scholarship/how-apply/get-ready-apply>

Year 12 UTS Engineering and IT - on campus tours

2 June, 2022. 4:00 pm - 6:30 pm Gain an insight into studying Engineering and IT at UTS

4.00pm - 5.00pm

4.30pm - 5.30pm

5.00pm - 6.00pm

5.30pm - 6.30pm

Check out the state-of-the-art UTS Engineering and IT building! Guided by one of our students, you will explore the facilities and study spaces that are available for engineering and IT students at UTS.

Intro to Electronic and Electrical Engineering at UTS

May 12, 2022 05:30 PM

Learn how Electrical Engineers deal with the generation and application of electricity, including high voltage. Electronic Engineers work with components trying to make them smaller and more efficient. At UTS you can specialise in either, or combine them together!

Register today and gain an insight into what electrical and electronic engineering is all about and find out if it's right for you. Hear from key academics about what it's like to study electrical and electronic engineering at UTS and how best to prepare. There will also be a Q&A session where you can have your questions answered live.

https://utsmeet.zoom.us/webinar/register/WN_vxw8PxeTQ7i3W18jMb31mw

Intro to Flexible Engineering at UTS

May 17, 2022 05:30 PM

Want to create your own combination of subjects or sub-major in an emerging area? Or not sure which engineering major to choose? The Flexible Engineering course is just that - flexible! Once you've completed core engineering subjects, choose a major or choose your own blend of compatible subjects.

Register today and gain an insight into what Flexible Engineering is all about and find out if it's right for you. Hear from key academics about what it's like to study Flexible Engineering at UTS and how best to prepare. There will also be a Q&A session where you can have your questions answered live.

https://utsmeet.zoom.us/webinar/register/WN_O8HtjmFnQNix6l3UPYFIAA

Women in Engineering and IT

May 23, 2022 05:30 PM

Learn more about the Women in Engineering and IT Community and the scholarships that are available for women in engineering or IT and how to prepare an awesome application. UTS offers a number of generous scholarships for highly motivated female students with a passion and interest to pursue a career in Engineering or IT.

Register today and gain an insight into the Women in Engineering and IT Community and scholarships available. Hear from key academics and scholars about how to apply and what it's like to undertake a scholarship at UTS. There will also be a Q&A session where you can have your questions answered live.

CSU Agriculture and environmental sciences online information night

Tuesday 31 May 2022, 6.00–7.30pm

See yourself in a rewarding ag or enviro science career?

Take your first step by joining us for an agriculture and environmental sciences online information night. We're #1 in Australia for agriculture and environmental sciences grads who get jobs.*

Discover where you can take your career with a Charles Sturt industry-aligned agriculture or environmental science course. From agribusiness to farm management and conservation to environmental planning – you can make a real difference through diverse careers. You'll learn about our on-campus facilities – like our 1,600-hectare uni farm and glasshouses at Wagga Wagga. And our environmental sciences facilities at Albury-Wodonga and Port Macquarie – including wetlands and 80 hectares of grey water management.

Meet our expert academics, hear from current students for a real insight into studying at Charles Sturt and be inspired by our guest speaker – AgriFutures Australia Managing Director, John Harvey – who will provide insight into the future of agriculture.

Find out how agriculture is more than farming and learn how you can make a difference to natural environments and habitats from our expert academics.

TAFE

NECA Electrical Practice Tests

NECA have put together resources to help Students prepare for Aptitude tests in the electrical Industry.

To be an electrician requires you have to be able to make calculations relating to electrical design. It is important to have a good understanding of sums, algebra, geometry and trigonometry. Working with Electrical can be hazardous when miscalculations occur.

Geometry comes into play when calculating cross sectional areas of cables and algebra is used when calculating current (Amps) and electrical loads.

Trigonometry comes into play when you start to look at capacitance and magnetism.

Below we have listed a number of link to Aptitude tests, we strongly recommend you practice these tests prior to sitting your aptitude Exam.

Practice Tests:

How to become a Chartered Accountant

Becoming a Chartered Accountant (CA) could set you up to thrive in business in different parts of the world. It's a highly regarded professional qualification with international recognition. CAs can work in a wide range of exciting and challenging careers. If you'd like to join their ranks, here are the steps:

<https://www.youunlimitedanz.com/about-ca/how-to-become-a-ca>

Accountancy Find your fit Event

Tuesday 17 May 2022. 5.30pm – 7.30pm in person

Or

Online. Wednesday 18 May 2022. 2pm to 3pm

Careers in accounting and finance can be quite diverse. There are quite a few areas of specialisation, for example: forensic, sustainability, tax and financial accounting just to name a few. It's a common question in a job interview to be asked which area you want to specialise in.

But how can you select a specialisation when you don't know all the options, how they work or what they do?

Our Find your fit event allows you to explore the wide range of options that a career in accounting and finance can provide. It will give you insights into what your future career could look like in different specialisations and what skills you might need to thrive in your career.

You will also have the chance to connect with and hear from business professionals in the industry and employers in your area.

<https://www.youunlimitedanz.com/get-connected/find-your-fit>

Where Being a Chartered Accountant Can Lead You

- Want to work anywhere in the world? The CA designation could be your passport to an international career
- Want to be in demand by top companies? Improve your chances of being head hunted by top employers throughout your career
- Want to be globally recognised? Join one of the globe's top ten leading accounting bodies and connect to a 1,000,000 strong global knowledge network.

<https://www.charteredaccountantsanz.com/become-a-member/why-ca/where-a-ca-could-lead-you>

What is forensic science really like?

What's it really like to have that dream job you've been eyeing off? We've found out for you and are busting myths about some hard-to-pin-down careers in STEM. Professor Shari Forbes dishes the decomposing dirt on forensic science, and it's nothing like CSI.

<https://careerswithstem.com/mythbusting-jobs-forensic-scientist/>

Which forensic scientist are you?

There are more career possibilities in forensics than you might think. Take our quiz to see which branch of forensics you're in!

UNSW Bragg Student Prize for Science Writing

Opens 26 April 2022

The competition closes 5pm Friday 19 August 2022

The UNSW Bragg Student Prize for Science Writing is a competition for Year 7-10 students in Australia. Meet the 2021 winners here!

2022 Topic: What is science?

What do we mean by science? Science is defined as an intellectual and practical activity investigating the nature of the world, and is characterised by the scientific method.

In this essay topic, you'll explore what shapes your own interpretation of science by looking at your personal experiences, defining moments Science has played a part in, cultural perspectives, family conversations and experiences first hand of how Science has impacted on life-long memories.

Craft an opinion piece, or historical or cultural research to inform and persuade your reader: what is Science and why do we need it?

Beyond Blue - Young people (12-25)

Going through tough times? Stress, anxiety and feeling down can affect anyone, and happens to a lot of us at some point in our lives.

We all have good days and bad days. However, if you're feeling sad, down or anxious and these feelings have started to affect your everyday life, then it's important to find out what's going on and how you can manage it.

Over 75% of mental health issues occur before the age of 25,¹ while suicide continues to cause the largest loss of life of young people in Australia². It's never too early to start looking after your mental health and wellbeing so you can be the best version of yourself.

Things to consider before studying psychology

Psychology is a field where professionalism is of utmost importance. Psychologists need to participate in ethical conduct, which includes all forms of communication with clients. Skills that are essential in the practice of psychology include strong listening and communication skills, personal integrity, empathy and self-awareness.

During the course of practice, a psychologist is expected to encounter clients who have a range of comorbidities and may require an interdisciplinary approach. This can mean liaising with a range of other health professionals. Psychologist Rebecca Ray also discusses how to treat clients with trauma without becoming traumatised yourself.

It can be challenging to stay composed in session with clients, and the practice of mindfulness can assist with this according to clinical psychologist Samantha Clarke. Another clinical psychologist Dr Tara Hickey has also incorporated mindfulness into her practice with clients, as well as for her own wellbeing.

Main 5 Questions to Expect in Your Next Job Interview

Job interviews are one of the more nerve-wracking experiences going around, particularly for university graduates. Polishing your resume, drafting cover letters and building a portfolio can be taxing, and that's before you even get to the interview stage. To give you a heads up, we've compiled a list of questions that tend to be asked in almost every interview, and provided some tips on how best to respond.

Studying Abroad Can Change the Way You See The World

Study Abroad Programs give you the opportunity to experience the world as your classroom. Rather than picking things up from books and the Internet, navigating a new landscape may open your eyes to culture, history, a new language or your heritage. Studying Abroad opens the door to personal growth and discovery too. As you learn to say 'hello' in a foreign language, make friends, eat exciting new foods, it is bound to boost your confidence, teach you self-reliance and stretch the parameters of your comfort zone.

Science Week 2022 In-person and online events, virtual tours, DIY science and more.

13 - 21 August

The school theme for National Science Week in 2022 is Glass: More than meets the eye. It is based on the UN International Year of Glass. It will celebrate the many roles that glass plays in our lives – from phone screens to optical fibre to glassware in labs – plus investigating glass as a part of our sustainable future. The uses for and intrinsic nature of glass in science make it a suitable topic for investigation across all strands of science education
